- Telemedicine Technologies cumulates expertise covering all clinical trial phases

Software as a Service (SaaS)

Our top-notch hosting platform guarantees data confidentiality and security enabling to deliver the solution in SaaS mode

Member of :

FLAWLESS DATA COLLECTION AND MANAGEMENT

Telemedicine Technologies tailors its services according to sponsor's requirements. Our involvement can either be limited to a single study or to multiple studies. Involving us in several studies will streamline data analysis, structuring and reporting.

UNDISPUTED CDISC EXPERTISE

CDISC enables the accessibility, interoperability and reusability of data for more meaningful research that has greater impact on global health. Based on the development of its own data collection and clinical data management tools, Telemedicine Technologies has built seamless processes to apply CDASH and ODM standards during eCRF & database design and export.
