

CleanWeb

GLOBAL e-PLATFORM FOR CLINICAL TRIALS

Intuitive ePRO/eCOA solution

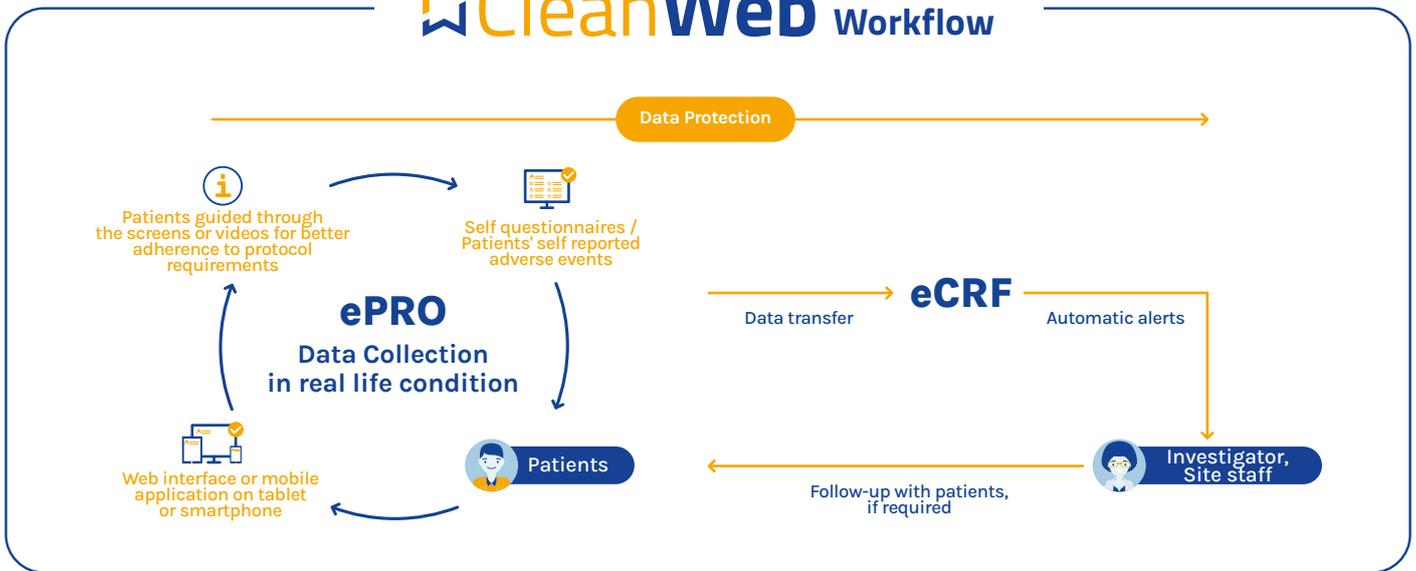

Request a demo

Available on the Web and on any mobile support (tablet and Android or IOS smartphones), our ePRO/eCOA (electronic Patient Reported Outcomes/electronic Clinical Outcome Assessments) solution allows seamless data capture by patients anytime and anywhere. The system works either as a stand-alone solution or can tightly be interconnected with CleanWeb eCRF to allow for further monitoring.

ADDED VALUES

- Paperless data collection and management
- Better patient compliance: guided data capture, embedded video tutorials, automatic reminders
- Perfect tracking of data capture, full audit trail, timestamp of data capture
- Increase of responsiveness: adverse events reporting between scheduled protocol visits
- No risk of data loss, increased regulatory compliance
- High patient compliance: easy to use for both patients and project teams
- Significant cost reduction vs paper PRO
- Flexibility: can be adapted to the specific needs of each project

CleanWeb Workflow

Software as a Service (SaaS)

Our top-notch hosting platform guarantees data confidentiality and security enabling to deliver the solution in SaaS mode

Member of :

PRINCIPLES OF USE

- Entirely integrated with the other CleanWeb modules such as eCRF or monitoring support functionalities
- Enables automatic and secure transfer of collected data to the CleanWeb server
- Linked to the eCalendar module, generates automatically questionnaires availability slots
- Sends automated reminders via SMS or email to help the patient fill in questionnaires which leads to an average ePRO completion rate of 95%
- Efficient dashboards enable real-time monitoring of progress and organise recovery campaigns when necessary
